- Wing-No } (combined primary)
- Room-No }
- painting-id }

Koushik Roy
17CS30022

⑦ CS30022MNO

- painting-id
 - generation-cd
- combined primary key

C) QUERY

Koushik Ray
17CS30022

Write a `SELECT` statement that retrieves all the paintings, their painter details, the ^{corresponding} generation details and the location where they are stored in the museum for those paintings which belong to the current generation or the just previous one.
